Flooding and landslides cause the collapse of an orphanage.

Description

At 18:15 on 9 January 2022, heavy rain caused flooding, which was followed by landslides, causing the Widhya Asih Bangli orphanage in Bali, Indonesia, to collapse.

An orphanage that has been in operation since 1975 and has become a blessing to the Bali Province Improvements are made on a regular basis in order to provide the best service to children.

When they have just repaired their old building, it becomes difficult for them to rebuild.

As a result, they request help in order to help them. We were contacted by the chairman of the synod balinese protestant christian church (GKPB), Bishops I Nyoman Agustinus, to help

lighten their burden and ensure that this children's orphanage was rebuilt as soon as possible.

The picture below shows some of the places affected by the flood.
